

Sprint Retrospective, Iteration # 1

Context Project: Virtual Humans

Group: Danshal

User Story	Task	Task Assigned To	Estimated Effort per Task <i>(in hours per person assigned to the task)</i>	Actual Effort per Task <i>(in hours per person)</i>	Done (yes / no)	Notes
As a programmer I want to be able to work with and understand already written code so I can work further on it	Get connector working on everyone machine.	Diony	6	4	No	Version of the tygron server was updated but provided sdk was not
	Get to understand how the connector works	All	4	4	Yes	We know how to use the connector properly now, even though it doesn't work yet.
As a software engineer I want to draft the necessary	Writing the draft of the product vision.	Stefan, Nick	4	3	Yes	Written & Handed in.
	Writing the draft of the product plan	Hao Ming, Levi	6	7	Yes	Written & handed in

documentation for SCRUM	Writing the draft of the architecture design	All	6	2	Yes	
As a context-group we want to improve the tygron connector	Communicate need for and help to materialize intergrated testing environment for connector (Travis)	Levi, Hao Ming	2	5	Yes	
As a context-group we want to create interesting cases for the game	Identify possible stakeholders and stakeholder interests. Communicate with other groups.	Nick, Stefan	6	4	Yes	The stakeholders have been decided and we have chosen one.
	Find our preferred stakeholder for in the game	All	1	1	Yes	

Main Problems Encountered

Problem 1

Description: Tygron updating their server software version but not updating the provided SDK. making the connector non functional.

Reaction: Tygron will be contacted and asked to not update the server without notice.

Problem 2

Description: We were told we should divide the task responsibilities better.

Reaction: Next sprint plan the task responsibilities will be evenly divided.

Problem 3

Description: We were told we should put in a little bit more hours to properly reflect 10EC.

Reaction: Next sprint plan the number of hours per person will be closer towards the 10 EC.

Problem 4

Description: Communication was sometimes a bit lacking. When someone asks a question, it deserves an answer.

Reaction: More meetings have been organised to keep track of what everyone is doing.

Adjustments for the next Sprint

For the next sprint the number of hours per person will be put closer towards the 10 EC. Also the task responsibilities will be more evenly divided. Finally we will have better communication in the form of more meetings.
